

LogiLink UA0053 audio card 5.1 channels USB

Model: UA0053

Manufacturer: LOGILINK

EAN: 4260113566183

Product Code: 393469

R739

Product information "USB 2.0 audio adapter, USB-A/M to 2x 3.5 mm/F, virtual 5.1 surround sound, black" from LogiLink

The LogiLink USB sound card provides an easy way to connect speaker, microphone, headset or IP phone with your PC. It is connected with the USB port of your computer as needed and supports Plug and Play. Using the integrated 3D sound effects the adapter can simulate a surround sound. The status of the connected devices can be monitored via the LED indicator lights.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
