Gloriously tame the thermals of your high-performance rig with the ROG Ryuo III 360 ARGB White Edition. Its polar-inspired shell compliments all-white builds and frames an AniMe Matrix display that can be customized to uniquely express your allegiance.

Encased deeper within is an 8th Gen Asetek pump that spins coolant through a higher capacity radiator that's topped with 120mm ROG ARGB fans to put a premium chill on the latest CPUs.

ANIME MATRIX™ LED PERSONALIZATION

ROG Exclusive Animation

Ten exclusive ROG animations are available for you to cast through the Matrix screen. Select your favorite and customize the sequence or use the Pixel Editor to create your own!

System Monitoring

Install Armory Crate and display your choice of system temperatures, voltages, and fan speeds from the beating heart of your rig.

Aura Sync

Customize the color and effects displayed on the ARGB fans and AniMe Matrix screen, and then synchronize with a vast range of Aura compatible system components to create a unified theme throughout your build.

Pixel Editor

Create your own images and text using the Armory Crate Pixel Editor, then upload to add a dash of unique personality to your rig.

EXTENSIVE COMPATIBILITY

The ROG Ryuo III series features 400mm of tubing and is compatible with a wide range of Intel® and AMD motherboard platforms, giving you ample processor and build flexibility.
