charging

Compact Foldable Design: Our wireless charging station is designed to be portable and foldable. It can be folded into a small square, and the height and angle can be adjusted. Compared to similar products, our charger is 40% smaller, making it easier to carry and store when traveling

Superior Safety: Your safety is our priority. The iPhone and watch charger stand is equipped with over-temperature, foreign objects, and short circuit protection, ensuring a more efficient and safer charging experience. The iPhone charging surface is made of silicone material, preventing scratches on your phone. The base of the charger is equipped with a counterweight iron, making it more stable

Wide Compatibility: Our charging station is compatible with various devices, including iPhone 15/15 Pro/15 Pro Max/14/13/12 series, AirPods Pro 2/1, AirPods3/2, Galaxy Buds, iWatch Ultra/8/7/SE/6/5/4/3/2, and most Qi-supporting devices. For optimal charging, we recommend using a MagSafe phone case or a bare phone

UGREEN wireless chargers are designed for everyday use at your desk, bedside, office, or in the car, delivering a truly cable-free charging experience. They support Qi fast-charging standards and iPhone wireless fast-charging power levels, while MagSafe-compatible models offer secure magnetic alignment so your phone stays in place during video calls, navigation, or scrolling short videos.

At your workspace, simply place your phone on the charger to instantly enter fast-charging mode. By the bedside, the coil automatically aligns for stable overnight charging that won’t shift easily. During business trips or travel, foldable magnetic models double as portable stands, enabling hands-free viewing while wirelessly charging.

UGREEN wireless chargers include foreign-object detection and smart temperature control for safe, reliable performance. They’re also compatible with AirPods, Samsung Galaxy, Google Pixel, and other major devices, ensuring a stable and secure wireless charging experience across brands.
