R1,155

Imagine a tripod that is as sturdy as it is flexible. The UGREEN LP661 is a professional tripod that not only perfectly stabilizes your device even under a load of up to 5 kg, but also offers a wide range of height adjustment, allowing you to create perfect shots from any perspective. 360-degree rotation? No problem. The attention to detail, versatility and compatibility make it an essential companion for any creator, regardless of the equipment used.
