R2,330

GoXtreme Reef: Perfect underwater camera for summer holidays

Everybody who likes to relax in the pool or search for treasures in the sea needs a camera they can count on. The GoXtreme Reef underwater camera is packed full with great technology.

The high grade 8MP sensor ensures rich colours and with the 4x digital zoom function and the clear image resolution of up to 24MP, the camera captures your underwater holiday snapshots in crisp, sharp quality.

Freedom under the water

There's no case needed!

The GoXtreme Reef is waterproof down to three meters, thanks to the attached hand strap it doesn't get lost and it produces razor sharp pictures even in rough water, because of the anti-shaking function.

Dual display for amazing underwater selfies

Smart design, a 2.7" large screen and a second 1.8" display on the front: Thanks to this dual display function you can create wonderful selfies. Just keep an eye on the large image and still easily find the perfect detail for your portrait.

INSTRUCTIONS

Before using your camera in the water please verify that all lids and locks are tightly closed and sealed. After using the camera in water please let it dry. The camera should not be exposed to high temperatures and humidity differences to avoid condensation behind the lens. Open the battery compartment only when the camera is dry.

After reaching a max. video recording time of 29 minutes the camera will automatically stop. It can only be restarted manually.

*In this setting the recording is interpolated.
