Double Sided Illuminated LED Mirror

A good mirror is vital for such a wide range of beauty tasks and also needs to look great in your home. This Beauty Mirror is both elegant and practical, it is double sided to provide a choice of a natural reflection or magnified for precision and detail. The LED illumination is fully adjustable to create the ideal level of light for any time of day. As it is battery operated it is fully portable so that you can use it wherever is most convenient. Features both 1x and 7x magnification. With a fully dimmable LED light for extra long life and low energy consumption.

Catch Every Angle

For a better view, use the rotating mirror to customise your style session by angle, lighting and magnification. With a sleek and minimal design, it's the right dressing table accessory for those with
