SANDBY COVER - SLIM PHONE CASE FOR IPHONE X AND IPHONE XS

Super slim lightweight phone case with good grip for Apple iPhone X / XS. Sandby is a super thin case moulded perfectly for the iPhone X / XS and it protects your phone without adding any bulk. The phone case has perfect cutouts for all functions and is compatible with wireless charging so you never have to remove the cover. The polished sandstone texture gives you a good grip and a stylish look. The grip is important as the iPhone X and the iPhone XS has a glass covered back, which tend to be slippery. The Sandby phone case has a raised lip around the camera to protect it. See our wide collection of colours and pick the one that suits you the best. Manufacturer: Krusell | Compatibility: Apple iPhone XS / X | Screen size: 5.8'' | Color: Beige
