Gives a vibrant and infinite RGB color to the computer case. Hydraulic bearings, like ball bearings, do not come into contact with metal and a thin layer of lubricant replaces the bearings. It has a very low noise level and is also resistant to internal shocks, so it shows high reliability without any problems even after extended use.

Motherboard Addressable RGB LED Sync Support

ZALMAN's Z-SYNC Addressable RGB supports a variety of modes and tuning effects to make your new gaming PC more vibrant/colorful.

Pre-installed rubber anti-vibration pads

The housing is made of robust material. It has excellent durability and anti-vibration rubber pads to minimize the vibrations generated during fan operation.

Specifications

Model: ZM-IF120

Dimensions: 120 x 120 x 27 (H) mm

Materials: PBT, PC

Weight: 130 grams

Fan Bearing Type: Hydraulic Bearing

Fan Speed: 1,200 RPM $\pm$ 10%

Maximum fan noise level: 21.0dB (A) $\pm$ 10%

Maximum fan airflow: 93.78 m³/h (55.2 CFM) $\pm$ 10%

Maximum fan air pressure: 1.95 mm H₂O $\pm$ 10%

Fan life: 50,000 hours

Fan connector type: Fan: 3-pin

LED: 3-pin (addressable RGB)

Rated Voltage Fan: 12V DC

LED: 5V DC
