Blaupunkt ACC036 Travel case with charger for DTS601/701/801

Original travel case with charging and UV sterilization BLAUPUNKT ACC036

The Blaupunkt ACC036 travel case allows you to safely transport sonic toothbrushes with the function of charging the handle via USB port and sterilizing the replacement heads thanks to the built-in UV lamp. Ultraviolet light disinfects the tips and eliminates any bacteria and microbes that can settle on the brush while stored indoors or non-sterile packages.

The UV light is activated when the case is connected to the power source. Recommended disinfection time 10 minutes.

Product data
