

Hama Speedshot Ultimate

Model: 00054478

Manufacturer: HAMA

EAN: 4007249544780

Product Code: 404311

R1,689

You want to use a mouse and a keyboard on your Playstation or Xbox not only for surfing the web? With this converter, all fans of first person shooter games will get their money's worth as they can now play at ultra high speed with a mouse and a keyboard.

- Allows gaming with the mouse and keyboard: especially for first-person shooters, high responsiveness advantage thanks to faster, more precise gaming
- Simple and straightforward plug & play thanks to optimised default settings
- Software CD supplied allows a perfect overview when adjusting the Speedshot converter
- The entire game play can be adjusted on the Speedshot directly or via the supplied PC software
- 81 different speed levels can be selected for the mouse
- 9 selectable sensitivity settings for perfect precision depending on the mouse and game
- All of the buttons on the Dualshock-4 controller can be assigned at will on the mouse and keyboard
- Up to 11 different key assignment profiles can be saved at the same time
- The 11 freely programmable profiles mean that even games with very different controls can be played in exactly the same way
