The Aquapix® Float Mount is a lightweight and compact grab handle for underwater cameras that prevents images from shaking when shooting in the water.

The wrist strap, compact size and grippy foam padding ensure a pleasant feel and uncomplicated handling.

Can be used with Aquapix® underwater cameras, other threaded cameras, GoXtreme® Action Cams as well as GoPro® cameras (no camera included).

For cameras with 1/4" thread and T-tip mounts.

Includes 1/4" thread adapter.
