

Xavax 00110233 Transport Rollers For Large Devices, Universally Adjustable

Model: 00110233

Manufacturer: XAVAX

EAN: 4047443449863

Product Code: 405040

R1,551

Rollable heavy-duty substructure, ideal as a moving helper for transporting washing machines, dryers, refrigerators, stoves or other household appliances: ergonomic, back-friendly and without much effort

the flexible support surface can be adjusted to a size of up to 70 x 70 cm by means of extendable rails of 50 x 50 cm; so the transport trolley can be used universally for washing machines, dryers, freezers, refrigerators and other household appliances, furniture, heavy plants or storage and transport boxes weighing up to 150 kg

Grippy anti-slip surface and special stiffeners at the corners: this makes the base particularly stable and resilient and the machine can be transported safely without slipping

The underframe protects your machine from backwater from the gully, flooding up to 11 cm and moisture on the ground, for example due to loose hoses
