

Prime3 CRA21

Model: CRA21

Manufacturer: PRIME3

EAN: 5901750505515

Product Code: 405157

R1,309

PRIME3 CRA21 Car Radio Player is an indispensable companion for every journey. The music will make your time behind the wheel more pleasant, while the radio will bring you the latest news from around the world.

Integrated FM tuner with convenient manual station search and RDS support will display actual broadcasted information (for example: current time, temperature, and exchange rates). For convenience, so that the user does not have to search for his or her favourite radio station each time, the CRA21 allows you to preset up to 18 radio stations. You can play your favourite music using Bluetooth connection, which also acts as a hands-free kit (built-in microphone for BT set). This function allows you to safely make, answer and disconnect calls while on the move, without taking your hands off the wheel.

With its portable memory slots, the device allows playing your favourite music from files compressed into MP3 and WMA formats. You will find the SD Card USB input (Standard A) on the front of the unit. You can also use its front AUX mini-in port to connect, for example, your portable music player. CRA21 has a maximum power output of 4 x 20 W, enabling a flexible choice of speakers. In addition, thanks to its 2-channel RCA output, you can connect an external amplifier, e.g., to supply a subwoofer.

Type: Car Radio with Bluetooth / MP3 | MP3 Playback: Yes | SD Card Playback: Yes | AUX Input: Yes | USB Input: Yes | Bluetooth: Yes | FM Radio: Yes | Display: Yes | Front panel: Mounted | Sound Output
