Tracer Vivid Pro – A Modern Smart TV Projector for Your Entertainment

The Tracer Vivid Pro is a compact projector with Android 13 that will open up new possibilities for home entertainment. With support for streaming apps and extensive functionality, you can watch movies, TV shows, and play games on the big screen — without the need to connect additional devices.

A screen to fit your needs

You can adjust the projection size from 40 to 100 inches for a truly cinematic experience in your home. The 1280x720 resolution and 200 ANSI lumens brightness guarantee clear images, ideal for evening screenings and immersive games.

Customise the display to suit your space

Keystone correction ensures a perfectly aligned image on any surface.

Manual focus adjustment allows for maximum display quality.

Zoom and 180° rotation allow you to set the optimal projection angle.

Smart TVs and streaming apps

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

With Android 13 built-in, you have access to popular streaming platforms and many other apps. The ability to download apps from the Play Store makes it possible for you to decide what content you want to watch.

Wireless Connectivity

2.4/5GHz dual-band WiFi ensures a stable connection and smooth online video playback.

Bluetooth 5.0 allows you to connect wireless headphones, speakers, and other devices.

Support for Miracast allows you to quickly transfer video from your phone or laptop without cables.

Sound

The integrated 3W speaker provides basic sound system, and you can connect an external audio system via Bluetooth or AV if needed.

Compatibility

With HDMI, USB, DC and AV connections, the projector works seamlessly with laptops, consoles, flash drives and other devices, giving you complete freedom of use.

Compact and mobile

The small size and lightweight design make the Tracer Vivid Pro easy to carry, making it great for both home and travel.
