

Severin TO 2079

Model: TO 002079

Manufacturer: SEVERIN

EAN: 4008146049125

Product Code: 405347

R2,505

This mini oven of 20 litres is an excellent choice for those who are looking for a compact oven with great functionality. Perfect for smaller kitchens, student apartments, offices, holiday homes or as a convenient complement to a regular oven. Despite its small size, the mini oven offers plenty of space for cooking everything from pizza and gratins to pastries and grilled dishes.

The mini oven is equipped with a variable thermostat that can be adjusted between 100 and 230 °C, giving you full control over the cooking process. You can easily choose between convection, top heat or bottom heat, making the oven versatile and adaptable for different types of cooking and baking. For extra convenience, both grill grate and baking tray are included. The baking tray comes with a practical handle that makes it safe and easy to remove hot trays. The oven has four different levels where you can place the trays, providing flexibility and even cooking regardless of the dish.

This model also has a rotating skewer, perfect for grilling chicken. Not only that, it also includes a pizza stone that gives your pizzas an extra crispy base.

The built-in 120-minute timer with acoustic signal means you don't have to keep track of the time – the oven will let you know when the food is ready. In addition, at the bottom of the mini oven there is a removable crumb tray, which makes cleaning quick and easy after use.

In summary, this is a small oven with a large capacity, perfect for those who want an efficient, space-saving and easy-to-use mini oven with many functions. A smart choice for anyone who wants to combine flexibility, performance and compact design.
