R1,854

KHUFU-II is designed for gaming setups where style, functionality, and flexibility matter equally. Bold visual accents and a futuristic shape create a modern gaming look while enhancing immersion and overall setup appeal.

With full adjustability — tilt, swivel, and rotation — both monitors can be positioned precisely for an optimized viewing experience, while the built-in mechanical spring system ensures smooth and effortless movement.

The keyhole-patterned VESA plate also makes installation and removal quick and convenient. Powerful, versatile, and visually striking, the KHUFU-II is built to elevate any dual-screen gaming setup.
