

VACUUM CLEANER ROBOT AQUA10 UL/ROLLER COM RLH71DE-1-WH DREAME

Model: RLH71DE-1-WH

Manufacturer: DREAME

EAN: 6978515253768

Product Code: 405723

R32,189

World's 1st AquaRoll™ Mopping Robot Vacuum Delivering Whole-Home Adaptive Cleaning
Roll. Rise. Renew

As the world's first AquaRoll™ robot vacuum, Dreame Aqua10 Ultra Roller pushes the boundaries of what a vacuum can do. It adapts to your floors without limitation, refreshes itself automatically, and navigates freely to tackle stubborn messes, delivering a smarter, easier solution for whole-home cleaning.

Minimalist Design, Maximal Impact.

Simple. Sophisticated. Smart.

A clean, cubic form meets futuristic detail. With a laser-cut electroplated panel, semi-transparent materials, and a sleek, sculpted cover, the design plays with light and shadow throughout the day—bringing modern elegance and dynamic energy to every home.

Always Clean. Always Gleaming.

The roller is continuously cleaned and refreshed as it mops—so it never reuses dirty water or spreads grime. Grease, spills, and tough stains are scrubbed away in real time, leaving your floors truly clean, not just wiped.

Ever-Fresh Water, Ever-Clean Floors.

Forget dated mops and musty odors, fresh water rinses the roller in real time, ensuring every inch of your floor is scrubbed with freshness and hygiene.

Fluffy, but Never Fluffs on the Job

The FluffRoll™ tech enables the roller to reach deep into seams and cracks, helping lift dried-on stains more effectively. And the counter-spinning roller keeps the mop clean, fluffed, and ready for the next mess.

Hassle-Free Carpet Care

AutoSeal™ roller guard proactively seals the roller when carpets are detected—preventing moisture leaks and lingering odors.

A Hot Self-Care Routine

After every clean, the vacuum gets a 'hot bath' with the 212°F ThermoHub™ self-cleaning tech—scrubbing away grime and odors from the roller for a fresh start every time.

Fast Cooling without Hurt The PTC system cools down quickly after cleaning, ensuring the washboard stays safe to touch for everyone in your home.

FlexRise™ Air Suspension:

The Off-Road Mastery for Your Home

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

While others still flinch when facing obstacles, the ProLeap™ system intelligently lifts its retractable legs to effortlessly climb obstacles up to 3.15in—the highest in its class.

Keep Brushes Dry

While mopping, TripleUp™ tech lifts the side (0.39in) and main brushes (0.2in) to avoid water contact—letting the mop tackle stubborn stains without dragging moisture around. This keeps brushes dry, prevents odors, and ensures peak vacuum performance.

Upgraded AstroVision™: NVIDIA-Powered Obstacle Intelligence via RL Training

Pets wander, toys scatter, furniture shifts—the vacuum sees it all. 2 AI cameras map 3D details and dodge over 240 objects from charging cables to pet toys with fingertip precision (0.04in).

Powered by NVIDIA and RL training, it actively adapts to chaos: navigating play zones, avoiding wandering pets, and rerouting around surprises. Finally, this vacuum handles your home's messes as smoothly as you do.

Edge-to-Edge Cleaning

Upgraded with StereoEdge™ tech, its 3D vision spots trip-wires and awkward furniture legs instantly, weaving around them with natural precision like a pro. Now you no longer need to rescue a stuck robot.

Side-to-Side Coverage

The detangling SideReach™ tech allows the robot vacuum to sweep out dirt in tight spots and corners. The tangle-free brush tackles hidden dust around furniture legs—leaving no mess behind.

Extended Cleaning

The roller mop intelligently extends beyond its frame to reach every inch along walls and corners – no more manual touch-ups. It automatically adjusts as it cleans, ensuring tight spaces get the same thorough scrubbing as open floors.

Incredible Suction Power

The TurboForce motor delivers up to 30,000Pa suction power—lifting 100% particle and 99% hair more efficiently and quietly, like embedded dirt, stubborn pet hair, hidden debris, and more.

Dual Brushes, Dual Effects

The HyperStream™ detangling DuoBrush features 2 brushes that adapt to every surface in your home, either for deep cleaning hard floors or dedicated care for carpets with zero hair tangle.

Auto Dirt Detection

By continuously monitoring the dirt level, it automatically adjusts the mop washing time and triggers another mopping pass for a spotless results.

No More Frustrating Pet Odors

Struggling with lingering pet odors? Our natural-ingredient cleaning solution actively neutralizes musty smells at the source—not just masking them, leaving your home smelling ultra-fresh.

Smart Carpet Recognition

Easily map all your rugs and carpets in the app—no matter their shape or angle. Your robot identifies their exact locations and adjusts as needed for thorough, customized care.

Pet-Friendly Care 4.0

Designed with pet owners in mind, this vacuum features a suite of pet-friendly innovations for your furry friends.

Smart Voice Control

Turn your robot into an obedient helper with a simple voice command. Simply say "OK Dreame" and let it do the rest.

Matter Protocol Supported

Seamlessly integrates with your smart home ecosystem. That means you can set up automated routines through your favorite voice assistant or a single app.

Keep Your Privacy Private

Aqua10 Ultra Roller complies with international safety and privacy standards, certified by TÜV and UL, with a simple promise: we never collect, store, or share your personal data. All data-sensitive functions stay disabled by default—they only work when you actively enable them.
