DJI RC Pro Remote Controller

With enhanced performance, DJI RC Pro is born for professional aerial photography. Thanks to the next-generation processor and increased storage capacity, the DJI RC Pro system runs more stably and smoothly. With powerful O3+ video transmission technology built-in, it also supports the DJI Cellular Dongle to enable 4G communication. DJI RC Pro adopts the same control sticks as DJI FPV to provide a smooth control experience. Up your game now with DJI RC Pro.

Supports: DJI Mavic 3
