creative expression.

Every inch of canvas is blooming with inspiration.

Every touch of drawing turns ordinary into extraordinary.

Display Performance Redefined

Clear visuals are essential for your artwork. The enhanced 2.5K display significantly elevates your drawing experience with a 21.5-inch display size, allowing every stroke to be displayed with accuracy, sharpness, and fine details.

2560 X 1440 Resolution

21.5 Inch Display Size

16:9 Aspect Ratio

Image Quality Presentation, Delicate and Detailed

The 2.5K resolution has significantly enhanced image quality. It offers 1.7 times the content of a FHD display and boasts a 33% increase in pixel density. With a pixel density of 137 PPI, it is compatible with various systems, providing a clear visual experience without the need to scroll between interfaces.

33% Increased PPI

77.8% Increased Display Content

178° Viewing Angle

Feel Like Drawing On the Paper

AG Nano Etched and AF Coating glass minimizes glare, flicker, and fingerprints. The full-laminated display decreases the distance between the pen tip and the cursor. The frosted matte surface makes drawing just feel like a piece of paper.

DC Dimming, Super Easy On Your Eyes

By utilizing DC dimming, This feature is also super friendly to your eyes, even during extended use.

250cd/m² Peak Brightness and 1000:1 Contrast Ratio.

Calman Verified Display, Tested For Excellency

Artist Pro 22 (Gen 2) drawing display has obtained Calman verification, representing its color

accuracy is recognized by authority organization. Each Artist Pro 22 (Gen 2) undergoes rigorous calibration and testing using a 3D LUT stereoscopic space to ensure color accuracy. Moreover, every display comes with its own Calman verified report.

Delta E 1, Industry-leading Color Accuracy

The color accuracy has reached a new level. Delta E 1 color accuracy ensures the alignment on different devices and environments. Precise color matching facilitates the creation of exceptional artwork and brings your most imaginative concepts to life as tangible art. This data is average and applies only to Adobe RGB.

Switch Seamlessly Between Three Color Spaces

Artist Pro 22 facilitates transition between sRGB, Adobe RGB, and Display P3, colors are displayed consistently across different devices with Color Gamut 99% sRGB, 99% Adobe RGB, 94% Display P3. Every color in your artwork appears true to life.

Endorsed by Sasha Fortova

Being a world-renowned artist, illustrator, and textile designer, Sarah Fortova is a five-time winner of the Première Vision Trends Award. Her creative style is unique and diverse, characterized by her adept use of rich colors to depict imaginary animal and plant forms from unconventional perspectives, reflecting her distinctive understanding and concern for nature. She has collaborated with brands and fashion agencies, including Vogue, AD Magazine, and Puma.

XPPen has partnered with Sasha Fortova to showcase the collision of humanity and technology, unveiling the new Artist Pro 22 (Gen 2) drawing display.
