office, education, and entertainment.

No Limits on Display

The brand-new 3-in-1 X-Paper display elevates overall picture quality to a remarkable level, providing a paper-like visual experience with authentic colors, smooth motion, and distinct details.

Read or Write, Just Like On Paper

The AG nano-etched display significantly reduces reflection and glare. Every letter you read or write appears as if it is on paper. The visual and tactile comfort of the Magic Note Pad makes it an exceptional tool for your creative process.

Three Color Modes for Immersive Reading

Forget about the limited color of e-ink. Simply press the X-Paper Key, and you can easily switch between three color modes to meet different needs. Nature Color Mode Present the original colors vividly and delicately Light Color mode Low saturation color display, release eye fatigue. Ink Paper Mode Paper-like black-and-white display for immersive reading

Restore The Original Color

Color matters for your creative process. The Magic Note Pad supports the display of 16.7 million colors with a brightness of 400nit. Its industry-leading color rendition capabilities not only enhance your reading and note-taking experience but also empower your creativity.

Every Pixel Displayed with High Quality

The display's refresh rate has reached 90Hz, a new benchmark for note pad. Each frame of the image is displayed with remarkable smoothness and clarity, greatly minimizing motion blur when watching fast-moving content.

Premium Experience for Mobile Creation

The Magic Note Pad features sleeve magnetic folio, ample 128GB storage and Android 14 open system for app download, making it your portable creativity powerhouse
