broader perspective for outdoor installations or a closer focus on corridors and compact spaces, we have you covered. Opt for more megapixels to monitor extensive areas or fewer megapixels when space is limited and ultra-high detailing isn't a priority.

A device with no hidden agenda

All system data is securely stored within the European Union and is in full compliance with European data protection standards.

Ajax BulletCam is NDAA-compliant, with every component sourced from manufacturers trusted and approved by the US government. It is versatile and can be installed in any location. Additionally, BulletCam has undergone independent cybersecurity tests to ensure its safety and reliability.

Customizable video wall for simultaneous monitoring

Integrate all your visual data in a streamlined interface. The video wall tab combines the latest snippets from IP cameras and MotionCam series detectors, offering a comprehensive view of your space. Rearrange tiles according to your preference. The video wall is accessible on both mobile and desktop apps.

Smooth archive search

Effortlessly access the archive by clicking on an event in the notification log, instantly directing you to the precise camera recording at the event's timestamp. Everything is one click away with our advanced features

Gone are the days of sifting through endless recordings or waiting for hours just to find that one significant clip. Experience unparalleled system response speed and smooth control. The lightning-fast interface offers dual streams and instant archive access without the typical wait. Instantly jump to a specific timestamp with one click – no more tedious searching.
