

KEYBOARD WRL Q1 MAX RGB/CARBON BLACK Q1M-M1 KEYCHRON

Model: Q1M-M1

Manufacturer: KEYCHRON

EAN: 4895248863304

Product Code: 406442

R5,547

Meet the Keychron Q1 Max, a full metal QMK wireless custom mechanical keyboard upgraded with a 2.4 GHz wireless connection, featuring a 1000 Hz polling rate. Elevating the typing experience further, it has been thoughtfully upgraded with multiple layers of acoustic foams, ensuring a premium sound quality with every keystroke.

Paired with many other premium features, such as the double-gasket design, PBT keycaps, screw-in stabilizers, and more, the Keychron Q1 Max promises an unparalleled typing journey that transcends expectations.

DOUBLE-SHOT PBT KEYCAPS

The double-shot PBT keycaps of the Q1 Max provide excellent oil resistance and prevent the legends

from fading out. Additionally, the keyboard offers two different keycap options to meet varying preferences and needs.

2.4 GHZ & BLUETOOTH

Experience peak gaming performance on the fly with the 2.4 GHz wireless connection boasting a rapid 1000 Hz polling rate. For seamless multitasking across your computer, phone, and tablet, you can effortlessly connect the Q1 Max via Bluetooth 5.1 to three devices.

A Refined Piece Of Metal Art

The entire metal body is crafted with 6063 aluminum that is processed through CNC machined, polished, sandblasted, and undergoes 24 more manufacturing stages to make this solid metal piece of art that is the Q1 Max.

SIGNIFICANTLY ENHANCED ACOUSTIC FOAMS

Elevate the typing experience with a combination of premium acoustic foams such as IXPE, PET, and Latex. Each keystroke becomes enjoyable, making every tap a delight for the senses.

Easy Assemble

We designed every component to be able to assemble easily so you can customize and adjust each component with ease to create your ultimate typing experience. Latex. Each keystroke becomes enjoyable, making every tap a delight for the senses.

An Epic Core Inside The Keyboard

A powerful ARM Cortex-M4 chip (MCU) equipped with 256K Flash will provide more flexibility for developers. The polling rate is 1000 Hz right out of the box on 2.4 GHz and wired modes (90 Hz on Bluetooth mode), which makes the latency hardly noticeable even in competitive game

DOUBLE-GASKET DESIGN

The Double Gasket Design is a new innovative structure in the industry. In addition to the gaskets on the plates, we added silicone pads between the top and bottom cases to significantly reduce the acoustic resonance between the metals and reduce the noise of the impacted metals.

Experience the next level of key sounds and comfort with our gasket mount design together with a

flexible PC (Polycarbonate) plate. This design combination allows the keyboard to maintain the flexibility of the gasket structure and improves the overall typing sound.

Program with QMK & Launcher.

The open-source QMK firmware means endless possibilities for key remapping, macros, shortcuts, and more. Now you can easily customize each key with the Keychron Launcher web app.

SUITABLE FOR ALL DEVICES

Built with the Mac users' experience in mind while still retaining compatibility for Windows devices, the Q1 Max comes with a system toggle and an additional set of customized keycaps for both Windows and macOS systems. You can now save two different layouts on the keyboard, one for each system.

PCB Stabilizers

No detail is too insignificant when it comes to your fingertip feel. We've integrated the PCB-mounted screw-in stabilizers for a smoother typing experience with less wobbliness on the big keys such as the space bar, shift, enter, and delete keys. You can even customize your favorite stabilizers on your own.

Hot-swappable

The long-time popular Cherry profile double-shot keycap set comes with premium non-backlight shine-through PBT material, that is oil-resistant, durable for long-term use, and with a comfy typing angle.

GATERON JUPITER SWITCH

Our exclusive Gateron Jupiter mechanical switch (for the Fully Assembled version only) comes with a 3-pin design, its pre-lubed with a reliable Gateron quality standard with up to 80 million keystrokes lifespan. While their unique LED diffuser design offers high RGB backlight transmittance and softer backlight effect.
