**SINGLE-CABLE BYOD WITH MEETUP 2**

Logitech Active USB Cable supports DisplayPort Alt Mode, which facilitates single-cable BYOD connection from a laptop to MeetUp 2 — no need to also connect the laptop to an HDMI cable or adapter. Now employees can run video meetings in the room by simply plugging a single cable into their laptop.

Supporting super fast data transfers with USB 3.1 Gen 2, this 5 meter cable is long enough to provide better flexibility in small meeting rooms.
