PULSAR XBOARD MS (XBMS01)

Top-Tier Speed with 35K Scan Rate

The XBOARD MS gaming keyboard is built for ultimate speed and precision, making it the perfect choice for competitive play. With an elite 35K scan rate and 8K polling rate, it delivers lightning-fast responsiveness, minimizing input lag for seamless, precise control. Equipped with CHERRY MX2A RED Linear switches, it provides a smooth, quiet, and consistent keystroke feel. A dedicated mode switch allows effortless transitions between Game Mode and Office Mode, adapting to any environment with ease. Customization is at your fingertips with the web-based Bibimbap software, enabling full RGB lighting control and personalized macro settings. Plus, its hot-swappable design lets you tailor the switch configuration to match your preferred typing style, ensuring maximum comfort and performance. With cutting-edge speed and versatility, the XBOARD MS lets you take full control of every game.

35K SCAN RATE

The 35K scan rate integrated into the XBOARD MS keyboard scans up to 35,000 keystrokes per second, minimizing input lag and ensuring precise response during rapid typing or multiple inputs in gaming. This cutting-edge technology makes the XBOARD MS the perfect keyboard for high-performance gamers and users who demand ultra-fast responsiveness.

ULTRA-FAST 0.16MS LATENCY WITH TRUE 8K POLLING

The True 8K polling rate scans the position of every key at an impressive speed of up to 8KHz, delivering smooth and rapid control. This exceptional speed minimizes keyboard latency to just 0.16ms, making it ideal for gaming scenarios where responsiveness is crucial. Experience unparalleled precision and speed for your gaming sessions.

CHERRY MX2A SWITCH

The linear switching characteristic combined with the low spring resistance triggers directly. The CHERRY MX2A RED is the first choice for beginners in the world of mechanical keyboards. The smooth-running CHERRY MX technology enables balanced writing and gaming sessions.

OFFICE MODE

Designed to meet a wide range of user needs, the XBOARD MS keyboard offers easy mode switching between Office Mode and Game Mode with dedicated buttons. Each mode optimizes LED colors and performance, ensuring maximum efficiency. Office Mode is activated by pressing the + button on the top, with a blue LED indicating the switch. This mode supports a 1K polling rate and 10K scan rate, minimizing unnecessary power consumption for an efficient and streamlined experience.

GAME MODE

Game Mode is activated by pressing the X button on the top, with a red LED indicating that the mode is now active. This mode supports up to 8K polling rate and 35K scan rate, delivering an ultra-fast speed environment optimized for gaming. Additionally, the Windows key lock function prevents unnecessary interruptions, enhancing immersion during gameplay.

16.8M RGB

Offering 16.8 million colors, the RGB lighting system features 44 preset effects that enhance your experience. Each preset provides a diverse array of effects and color combinations, enabling users to

adjust the keyboard's illumination to create the perfect atmosphere or theme. Whether aiming for a vibrant, energetic setup or a more subdued ambiance, you can effortlessly tailor the lighting to reflect your personal style and mood. Elevate your workspace or gaming environment with stunning, customizable RGB lighting.

TRIPLE ABSORPTION STRUCTURE GASKET MOUNT

Built with a durable aluminum reinforcement plate, this keyboard features a triple-layered sound dampening structure designed to minimize resonance. The noise-reducing layers placed on the bottom and PCB effectively reduce vibrations and sound, while the silicone gasket mount further dampens noise. The result is a precise, smooth typing experience with minimal noise, making it perfect not only for gaming but also for office use.

CONTROL KNOB

The top control knob lets you easily adjust the volume, and with the FN+knob combination, you can quickly modify the LED brightness and color presets to suit your preferences.

PBT DOUBLE-SHOT KEYCAP

Double injection keycaps are durable, with legends that never fade and a premium, long-lasting appearance.

GASKET MOUNTING

Prevents vibrations and noise, delivering a quiet and smooth typing experience.

CUSTOM KEY

The keyboard supports user-assigned custom keys, allowing you to easily add frequently used keys or macro functions through the "Bibimbap" web DRV. Without altering existing keys, you can freely assign new ones, making your setup more personalized and convenient for your needs.

HOT SWAPPABLE

Hotswap support allows you to replace switches easily, enabling you to experience various typing feels and facilitating simple repairs in case of switch malfunction.

It supports MX-style mechanical switches with 3 or 5 pins, including brands like Gateron, Kailh, Cherry, Holly Panda, etc.
