See more, do more

The UltraWide™ Full HD (2560×1080) display offers 33% more horizontal screen space than a standard FHD (1920×1080) monitor. The virtually bezel-less design offers an uninterrupted, wider view. This allows for more efficient multitasking without switching between windows.

Detailed Contrast

This monitor supports the industry-standard HDR10 high dynamic range and covers 99% of the sRGB colour spectrum, delivering precise colour and brightness levels that bring out the vivid, dramatic visuals in content.

Switch swiftly

You can readily divide the whole display into up to 6 sections, change the theme design, or even launch a video call platform with a mapped hotkey. It also supports PBP and PIP modes for efficient multitasking across multiple input sources.

Clear motion with 1ms MBR

1ms MBR reduces motion blur and ghosting, delivering smoother gameplay and clearer visuals in fast-paced scenes.

Reader Mode

Adjusts colour temperature and brightness to help reduce eye fatigue when viewing documents for extended periods.

Flicker Safe

Flicker Safe reduces invisible flickering on the screen and provides a more comfortable working environment for your eyes.

Reduce clutter with a sleek design

The L-shaped stand provides ergonomic comfort with tilt adjustment and supports 100×100 VESA wall mounting for flexible installation and optimal workplace use.
