One-Tap Editing

Pair the Osmo Mobile 7 Series with the DJI Mimo app to enjoy AI-powered one-tap editing and a range of exclusive video templates. From shooting to processing, it's a one-stop solution truly friendly for new creators.

ShotGuides

ShotGuides automatically analyzes your scenario and recommends a shot sequence, along with a tutorial for how to get it. Choose from a range of templates, follow the instructions, and shoot like a pro in no time.

Compatible With Android & iOS Ecosystems

Enhanced Compatibility With Android Phones

The all-new magnetic phone clamps offer versatile compatibility, seamlessly accommodating even Android phones with large camera setups. This ensures smooth and stable shooting experiences across a wide range of Android devices, from entry-level models to high-end flagships [9].

Snap the Spectacular

The Multifunctional Module [3] combines intelligent tracking, DJI Mic Mini reception, and lighting features into one compact unit. Its magnetic clip design allows for easy attachment and detachment. It also supports remote gesture control. Whether recording daily life or crafting content for social media, you can seize every amazing moment confidently.

Always Focused, Always Ready

With advanced smart capture algorithms, the Multifunctional Module [3] skillfully maintains focus on the lead to ensure smooth and continuous tracking, even in complex scenes with multiple subjects. Whether you're capturing sports events or shooting vlogs, every project flows effortlessly, unlocking endless creative possibilities.

Seamless Integration, Effortless Setup

Osmo Mobile 7P packs powerful performance into its compact body. When paired with the Multifunctional Module [3], it provides lighting and audio reception capabilities. Additionally, it features an integrated extension rod and tripod. This intuitive design offers comprehensive support for your creative projects.

Lighting

The fill light offers adjustable brightness and color temperature, improving image quality in overcast or low-light conditions, ideal for live streaming and daily recording.

Audio Reception

Thanks to the DJI OsmoAudio ecosystem, pair with the Mic Mini Transmitter [4] for immersive, crystal-clear sound in your live streams and vlogs.

Built-in Extension Rod

With the built-in extension rod, you can include more friends, pets, or stunning scenery in your selfies, and unlock creative high and low angles for your vlog shots.

Built-in Tripod

The built-in tripod eliminates the need for additional accessories. Simply unfold it for stable placement [5], making solo creation effortless and storage hassle-free.

Empower Your Steady Creativity

The Osmo Mobile 7 Series is built to last, offering up to 10 hours [2] of operating time. It supports your recording and creative pursuits all day long, and with its USB-C port, it can also charge your phone—ideal for extended outdoor filming and live streaming.

When the Multifunctional Module functions as a microphone receiver, its USB-C port connects to your phone to deliver high-quality audio transmission while also providing extra power. This ensures you can continue creating in outdoor settings without access to power sources, so you never miss capturing your highlight moments.

Quick Unfold, Quick Launch

Thanks to the Osmo Mobile 7 Series' magnetic design, attaching and detaching your phone is a

breeze. The gimbal powers on as soon as you unfold it. Snap-in a paired smartphone, and the DJI Mimo app [6] pops up automatically, allowing you to start shooting as soon as inspiration strikes.

Powerful 3-Axis Gimbal Stabilization

The Osmo Mobile 7 Series utilizes DJI's seventh-generation stabilization technology to provide consistent stability without compromising image quality. Capture bursts of inspiration and create stunning, cinema-quality masterpieces with phones weighing up to 300 grams.

Instant Switch for Rear-Camera Selfies

Press the trigger three times to rotate your phone's rear camera to face you, instantly accessing high-resolution image quality. This feature enables seamless transitions between subjects and scenery during vlog shooting, making your stories more vivid and dynamic without the need for extensive adjustments.

Intelligent Features, Enhanced Views

Unleash your creativity with more features at your fingertips. When connected to the DJI Mimo app, the gimbal offers a range of intelligent shooting modes, including Timelapse, Panorama, and DynamicZoom, to capture every moment of inspiration.

Focus Your Way

Effortlessly and fluidly control zoom and focus with Osmo Mobile 7P's side wheel. Roll the wheel to adjust the focal length for flexible composition and zoom in and out with butter-like smoothness. For more cinematic control, press the side wheel once to switch to manual focus. Additionally, a long press enables control over the fill light, making it easy to adjust brightness and color temperature, thus simplifying your shooting experience.

Parents & Kids Mode

Using Parents & Kids Mode, the Osmo Mobile 7 Series instantly transforms into your family photographer, automatically handling camera movements to ensure you can capture moments while being present with your loved ones. After filming, you can access a variety of video templates in the DJI Mimo app to effortlessly create a digital family keepsake with just one tap.
