

CASE FAN 360MM/F360 RGB CORE NZXT

Model: RF-U36HF-W1

Manufacturer: NZXT

EAN: 5056547204444

Product Code: 407631

R1,885

NZXT F Series RGB Core single-frame fans seamlessly integrate multiple fans for effortless installation while offering superior cooling, whisper-quiet performance, and striking RGB visuals.

All-in-one Design

Single-frame unit with integrated fans streamlines installation, setup, and lighting control.

Versatile Connectivity

Simply connect a single cable to an NZXT controller (sold separately) for lighting and speed control via NZXT CAM software. Or, connect to any motherboard's 5V ARGB header using the included splitter cable.

Optimal Performance

Blade design boosts static pressure to push air through tight spaces with superior airflow.

Fluid Dynamic Bearings

Ensures low noise, high rotational stability, and a 60,000-hour fan lifespan.

Radiant RGB Lighting

8 aRGB LEDs per fan hub shine through semi-translucent blades and frame side windows.

PWM Control

Dynamically adjusts fan speeds based on PC temperatures for optimal efficiency*.

*Requires PWM connection to motherboard or controller (sold separately)

Silent Operation

Anti-vibration rubber corners dampen noise and Zero RPM Mode* shuts fans off during light loads.

*Requires an NZXT controller or NZXT motherboard, each sold separately.

- Single-frame unit with integrated fans streamlines installation, setup, and lighting control—no need to connect individual fans
- Simply connect a single cable to an NZXT controller (sold separately) for lighting and speed control via NZXT CAM software. Or, connect to any motherboard's 5V ARGB header using the included splitter cable
- Fan blade design boosts static pressure to push air through tight spaces while ensuring optimal airflow. Suitable for both intake and exhaust
- Fluid dynamic bearings ensure quiet, stable operation across an exceptional 60,000 hour lifespan
- Eight individually-addressable RGB LEDs per fan hub are diffused through semi-translucent blades for brilliantly colorful visuals
- PWM-controlled fans dynamically adjust spinning speeds based on PC temperatures for optimal efficiency and reduced noise
- Anti-vibration rubber corners effectively eliminate noise caused by vibrations for hushed performance at any speed
- Control lighting and fan speeds via CAM software when connected to an NZXT controller (sold separately)

Summary: NZXT RF-U36HF-W1. Type: Fan, Fan diameter: 36 cm, Rotational speed (min): 500 RPM,
