Elementum E5 550 W is a stable PSU with an 80 PLUS® certificate that will work well both for PC integrators as well as for home assembly. It is equipped with the proper wiring for powering a graphics card with its two PCI-E connections (8- and 6-pin). And thanks to its deep black hues, it will look appealing even for less visually impressive PCs.

home assembly.

This PSU offers multiple protections (OVP, UVP, SCP, OPP and SIP) and so your PC will be able to resist, among others, short-circuits and unexpected system overload. A 12-centimeter fan is in charge of keeping things cool – which in practical terms means that even a computer under heavy load will still allow you to enjoy a pleasant silence.
