

i-tec USB-C DisplayPort Bi-Directional Cable Adapter 8K/30Hz 150cm

Model: C31CBLDP8KBIDIR

Manufacturer: I-TEC

EAN: 8595611706202

Product Code: 415286

R963

Expand your desktop or docking station with an external monitor via the new USB-C, USB4 or Thunderbolt 3/4 connector. This cable adapter supports up to 8K video and stereo audio.

The cable adapter is suitable for use with all laptops equipped with a USB-C connector that supports video transfer (DisplayPort alt mode), as well as with a Thunderbolt 3/4 or USB4 connector.

This video cable adapter is bi-directional: it can convert and transfer video both from USB-C to DisplayPort and vice versa: from DisplayPort to USB-C.

It is very easy to use, just plug the cable adapter into the appropriate port – either USB-C or DisplayPort and connect the desired accessories, e.g. monitor, projector, etc.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
