PLAY WITH PRECISION AND IN A GOOD STYLE

Discover Mangan 400 and choose a professional and stylish gameplay. It is a wireless controller, designed with an emphasis on operational precision and matching the appearance of the controller to individual tastes. With these solutions, you will find it much easier to achieve subsequent victories and stand out among other players.

PERFECT JOYSTICKS

Perfect reproduction of joystick movements ensures that during the gameplay, you can fully utilise

your own skills. It will not limit them to simplified controls characteristic of competitive controllers - with Mangan 400, tilting the stick in your chosen direction will execute a smooth and precise movement in a circle.

CUSTOMISE THE OPERATION TO YOUR NEEDS

You can adjust the operation of Mangan 400 to your individual needs. Whether you prefer the controller to remain still during gameplay or need to select one of the three available vibration strength modes for the controller. You can also adjust the sensitivity of the joystick, allowing you to customise, for example, the camera movement speed according to your preferences, even if the game itself does not allow it. Play by your own rules without compromising.

PRECISE TRIGGERS

Mangan 400 also features precise triggers. The force with which you press the triggers can affect, for example, the speed of the vehicles controlled in the game, making the gameplay even more responsive. Your victories are within reach, but they depend on quickly made decisions and... nimble fingers.

WIRELESS COMMUNICATION

Enjoy the Mangan 400 controller freely thanks to wireless communication. The Bluetooth® adapter allows for communication with a PC within a range of up to 5 meters, while direct Bluetooth® connection allows for playing from a distance of up to 10 meters from the device. You can play comfortably from anywhere in your room.

REPLACEABLE FRONT PANEL

Break the routine of traditional controllers. Use the interchangeable front panel to customise the appearance of Mangan 400 to your style. At any time, change the colour cover (available in black, red, or white) to its alternative version, which you will find in the box

GAMEPLAY AS YOU LIKE IT

Mangan 400 is a versatile controller that allows for comfortable gaming on a computer, consoles (Nintendo Switch, Asus Rog Ally, Steam Deck), and mobile devices with Android and iOS on board. A fully charged device allows for playing for up to 15 hours, so you don't have to worry about interrupting the fun at the least expected moment.

SECURE CASE.

A special case with a place for the PC adapter will allow you to safely store the equipment when you are not using the controller. It will also be useful during transport - Mangan 400 will enable comfortable gaming not only at home but also outside, for example, while traveling.

QUALITY

The pad is comfortable and will serve you for a long time. This is thanks to the illuminated buttons, which are made using Double Injection technology. This ensures that their imprints will not wear off even after years of use. The rubberised grips also contribute to the comfort of playing, preventing the controller from slipping - even during the most exciting gameplay.
