R1,018

USB microphone with tripod for streaming, podcasts, vlogs and voice-overs

High-level talk

The Mantis has a USB adapter for high-quality, distortion-free digital audio. Apart from talking to your teammates, this microphone is made for perfect use with Twitch, YouTube or the platform of your choice: everyone will hear you clearly.

Stand-up

The Mantis is equipped with a tripod stand and makes it possible to adjust the angle of the microphone. This allows you to use the microphone easily in the most comfortable way possible. The universal shock mount and pop filter make sure you are set for clear audio reproduction.

Success is in your hands

Thanks to the 1.5m cable, you can place the Mantis anywhere. Don't want to be stuck behind your desk? The Mantis can also be used without the tripod, by simply holding the microphone in your
