

GENESIS Carbon 700 XL Gaming mouse pad Black

Model: NPG-1800

Manufacturer: GENESIS

EAN: 5901969431704

Product Code: 416312

R821

EXTRAORDINARLY DURABLE

Pads from the Carbon 700 series are made of highly damage resistant Cordura fabric, which is commonly used in the production of expedition backpacks or clothes for motorcyclists. The special structure of the fibres and unique weaving method create outstanding resistance to abrasion, thanks to which the pad will remain in excellent condition for many years.

NON-SLIP BOTTOM

The bottom of the pad is made of high-quality non-slip rubber. Thanks to this, you can be sure that the Carbon 700 will not move unexpectedly and will remain in place even during the most dynamic gameplay.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

SPEED SURFACE

The top layer of the pad is covered with a smooth "speed" surface, delivering a flowing even glide and an immediate response. Thanks to this, the pad will speed up the execution of planned movements and increase their dynamics. The Carbon 700 series is compatible with all types of mice.

WATER RESISTANCE

The surface of carbon 700 is fully resistant to water and prevents the absorption of liquid, which means that the pad will remain intact even after spilling liquid on it. Put your favourite drink on the stand and indulge in exciting gameplay!

STITCHED EDGES

The edges of the pad have been additionally protected with a black hem which protects against fraying. Trimmed edges will keep the pad in perfect condition for many years to come.
