

GENESIS Polon 200 XL Gaming mouse pad Black

Model: NPG-1932

Manufacturer: GENESIS

EAN: 5901969435191

Product Code: 416314

R679

More control over the cursor means better results in the game. Meet Genesis Polon 200 XL – a mouse pad that gives you excellent precision. Its rubber, non-slip underside will prevent the mat from moving even during fast movements, and the dimensions of 500 x 400 x 3 mm guarantee freedom of movement even for "low-sense" players.

WHEN PRECISION MATTERS

Are you looking for a mouse pad that will allow you to control instant movements and improve your precision? To create the surface of Polon 200 XL, we used a thicker weave of material, which is more resistant to the sliders of the device. In practice, this means a slower, controlled mouse slide that will positively translate into your precision. Want to improve your accuracy? Now it's possible.

PERFECT FOR FANS OF LOW DPI

Pads with a less smooth surface are often chosen by those who prefer low DPI. These settings ensure more effective gameplay and more accurate movements. However, this is not possible without the appropriate dimensions of the mat. With genesis Polon 200 XL you don't have to worry about it. Dimensions of 500 x 400 x 3 mm will give you a lot of freedom.

QUALITY YOU CAN COUNT ON

Are you tired of fraying material? We have carefully stitched the edges of genesis Polon 200 XL, it owes its durability to a special hem. We also took care of the underside of the mat. It is covered with a non-slip material that will prevent the pad from moving regardless of the surface.
