

Gorenje Induktionshäll GI6443BSCWF

Model: GI6443BSCWF

Manufacturer: GORENJE

EAN: 3838782924118

Product Code: 417456

R11,839

LumiSliders

LumiSliders redefine the aesthetics of control panels with a sleek, modern design. Unlike regular sliders that remain visible even when the device is off, LumiSliders blend seamlessly into the surface, becoming completely invisible when the induction is powered down.

Double FlexArea

The cooking zones positioned on the same side of the hob can be connected into one, creating a large cooking surface. It allows evenly cooked or grilled food in bigger pots and pans and it's available on both sides.

AutoProgrammes Pro

Induction hob's smart sensors and algorithms monitor cookware temperature, and by precisely adjusting the power, our Auto programs Warm, Melt, Simmer, Grill, Fry and Boil functions deliver exceptional results.

StableHeat

Unlock a new level of cooking precision with our innovative, patented technology. Our unique software and hardware system delivers uniform heating through rapid, imperceptible power cycling, providing a consistent cooking experience free from temperature or power variations. Achieve perfect results with ease.

PowerShift

Cook more efficiently and worry-free with a new function that allows simultaneous transfer of the pan, time and power level to different zones of the induction hob. Move the pot and make room for another one, using the zone you need.

InstaDetect

Hardware solution ensures every cooking zone instantly recognizes your cookware in super fast time - 0.2 seconds. No matter how quickly you move pots or pans, our hob effortlessly adapts, providing seamless and silent cooking control.

ConnectLife

With the Connect Life app, monitor your hob in real-time from anywhere. Access smart recipes and additional automatic programmes with advanced temperature cooking to make cooking effortless and more enjoyable. With automatic updates via Wi-Fi app, you are always up to date with latest improvements and new functionalities.

EasyInstall

Installing your new hob has never been easier! With a pre-installed gasket seal, there's no need for a frontal gap, making setup quick and hassle-free. Enjoy a sleek, secure fit and effortless use from day one.

Power distribution management

No worries about power limits. Your induction hob adjusts to your home's setup, ensuring a hassle-free cooking experience with flexible power settings.

QuickBoost

Boost power instantly before cooking. Hold your selected power level for 3 seconds, and the hob briefly switches to max power before returning to your setting.

Recall

No worries if your hob turns off. Simply switch it back on, press pause, and restore all settings including timer, power levels, and cooking zones for hassle-free cooking.

StopGo

Need to clean your hob while cooking? Hold the Pause button to save all settings. After cleaning, press Pause again to resume cooking with timer, power levels, and cooking zones unchanged. Clean with confidence and cook without interruptions.

Timer

Cooking made easy with two handy timers. The cooking zone timer turns off the zone automatically, preventing overcooking. The general timer beeps when time is up without affecting cooking zones, perfect for multitasking in the kitchen.

Ultra slim installation

Renovating or upgrading your kitchen? This induction hob is designed to fit even slim worktops—down to 28 mm thick—so you get a clean, modern look and easier installation, even in compact or minimalist countertop setups.

HoodSync

Cook with ease and let the hob and hood connect for a seamless cooking experience. When you start cooking, the hood automatically turns on and adjusts its power level to match your hob's settings, ensuring a fresh and clear cooking environment every time.
