

Aerocool Air Frost 4 Processor Cooler 9 cm Black

Model: AEROPGSAIR-FROST4-FR

Manufacturer: AEROCOOL

EAN: 4710562750201

Product Code: 418531

R946

High-performance air cooling solution with 3-Pin connector featuring a stylish Fixed RGB LED Lighting design to add extra flair to your rig. Powered by Heat Core Touch Technology (HCTT) with 4 ultra-efficient thermal heat pipes. Top Down Cooling design allows for more efficient heat dissipation. Upgraded high efficiency fins deliver maximum thermal performance.

FIXED RGB LED LIGHTING

8 Fixed LEDs create a static lighting effect that adds a stylish flair to your rig.

HEAT CORE TOUCH TECHNOLOGY (HCTT)

4 Heatpipes provide a perfectly flat and smooth surface to maximize contact surface area.

This allows for minimal heat transfer loss while in direct contact with the CPU to increase the efficiency of heat dissipation.

TOP DOWN COOLING DESIGN

Top Down Cooling design allows heat to dissipate more quickly and efficiently while offering higher compatibility with cases.

HIGH EFFICIENCY FINS

Upgraded high efficiency fins for maximum thermal performance.

COMPATIBILITY

Compatible with most current motherboard designs.
Socket compatibility: LGA 2066/2011/115X/775
AM4/AM3+/AM3/AM2+/AM2/FM2/FM1

COMES WITH 3-PIN CONNECTOR
