Equipped with the KVM switch, the XUB3293UHSN allows you to connect multiple computers that can be operated over one console (monitor, keyboard, mouse). The USB-C dock provides a clean and practical workspace by using a single cable to both send the signal from your notebook to your monitor and power and charge the notebook from the monitor. Additionally, if your monitor is connected to the Internet with a LAN cable, your notebook will automatically be connected to the network as well. IPS panel guarantees wide viewing angles and natural, highly accurate colours.
