

GEMBIRD UVG-002 USB 2.0 Video Grabber

Model: UVG-002

Manufacturer: GEMBIRD

EAN: 8716309079983

Product Code: 421440

R783

The Gembird UVG-002 is a versatile audio and video capture adapter designed to enhance your multimedia experience. With its compact external form factor, this adapter provides multiple connectivity options for capturing high-quality audio and video. Compatible with various video formats such as NTSC and PAL, the adapter allows for seamless integration with different devices, making it an essential tool for content creators and enthusiasts alike. The SuperSpeed USB 3.0 interface ensures fast data transfer rates, while the diverse range of input options, including S-video, composite video, and SCART inputs, allows for flexibility in connection choices. With digital video formats supported, including MPEG-1, MPEG-2, and AVI, the Gembird UVG-002 caters to diverse media needs. The device captures video at resolutions of 720 x 480 and 720 x 576 at a speed of 30 frames per second, enabling smooth video playback. This adapter adheres to strict quality standards such as ISO 9002 and RoHS and proves to be a reliable companion for anyone looking to capture and transfer video content easily.
