Model: GA-01B-TG-OP

Manufacturer: CHIEFTEC

EAN: 753263078520

Product Code: 421510

R2,363

The Chieftec Gamer Series APEX system cabinet redefines the standards of gaming rigs with its exceptional design and functionality. This tower chassis is not just about looks; it's built to meet the needs of gamers and PC enthusiasts alike. With a built-in RGB LED controller and ARGB fans, it offers a customizable lighting experience that adds flair to any gaming setup. The APEX supports high-performance components, accommodating CPU coolers up to 175 mm in height and video cards up to 400 mm in length. The inclusion of tempered-glass panels on the front and side elevates the visual appeal, allowing you to showcase your build with pride. Cooling is efficient with the APEX, thanks to its support for multiple fans and radiators, ensuring your components stay cool under pressure. Additionally, the comprehensive front panel connectivity, including a USB-C 3.2 Gen 2 port, ensures you have all the necessary connections at your fingertips. Whether you're a hardcore gamer or a PC enthusiast, the Chieftec Gamer Series APEX is designed to impress and perform.
