The Chieftec Gamer Series Hunter 3 is designed for gamers who require both functionality and style. This tower chassis features a meshed front panel that facilitates airflow, keeping components cool during gaming sessions. Equipped with an ARGB fan hub, users can enjoy customizable lighting effects compatible with various RGB synchronization technologies, including ASUS Aura Sync, ASRock Polychrome SYNC, and MSI RGB Mystic Light Sync. With ample internal storage options, the Hunter 3 supports up to six internal bays and has plenty of expansion slots for future upgrades. The tempered-glass windowed side panel allows for a view of the internal components and customizable lighting. Designed to accommodate bulky components, it has a maximum GPU length of 425 mm and supports multiple cooling configurations, enabling thermal performance tailored to personal gaming setups.
