

GEMBIRD TG-G3.0-01 Heatsink Thermal Paste Grease 3g

Model: TG-G3.0-01

Manufacturer: GEMBIRD

EAN: 8716309083133

Product Code: 421535

R544

Gembird's TG-G3.0-01 thermal paste provides efficient thermal conductivity with a value of 4.5 W/mK. This product ensures optimal heat transfer for various applications, enhancing the performance of electronic components. With a thermal resistance of 0.205°C/W, it effectively manages heat, allowing systems to operate within safe temperature limits.

Operating in extreme temperatures between -50°C and 240°C, this thermal paste is suitable for a wide range of uses, from low-temperature applications to high-performance systems. Compliance with ISO 9002 and RoHS standards ensures safety and quality, making it a reliable choice for thermal management in electronic devices.

Product Description: Gembird TG-G3.0-01 - thermal paste | Product Type: Thermal paste | Colour: Grey | Weight: 3 g
