

CHIEFTEC APEX LUMO TG ATX gaming case

Model: GA-01B-L-OP

Manufacturer: CHIEFTEC

EAN: 753263078810

Product Code: 421967

R2,105

The Chieftec APEX LUMO chassis offers a blend of functionality and aesthetics, designed for tower setups with ample internal space and cooling options. The meshed front panel enhances airflow, while the RGB Sync Switch and PWM controller allow for customizable lighting and fan speed management. A windowed side panel made of tempered glass showcases internal components, ideal for displaying your build. With support for multiple cooling configurations and a maximum GPU length of 400 mm, this chassis accommodates powerful components comfortably.

The APEX LUMO includes a variety of front panel connectors, including USB-C 3.2 Gen 2 and USB 3.0, ensuring easy access for peripherals. With a robust cooling system that supports up to 7 expansion slots and the capability to install multiple radiator setups, this chassis promotes excellent thermal performance. Its compatibility with different motherboard sizes, such as extended ATX, ATX, microATX, and Mini-ITX, makes the Chieftec APEX LUMO a versatile choice for any PC builder looking for a stylish yet efficient solution.
