The Ubiquiti UniFi U7 Pro Wall redefines the standard for wireless network performance and security. Designed to cater to the demands of high-density environments, it supports over 300 connected devices and delivers extensive Wi-Fi coverage across up to 140 sq.m. With the integration of Wi-Fi 6E technology, users can experience speeds up to 5.7 Gbps, ensuring smooth streaming, gaming, and downloading across all connected devices.

Security is a priority, and the U7 Pro Wall addresses this with advanced encryption protocols including WPA3, alongside features like Guest Isolation and Private Pre-Shared Key (PPSK), safeguarding your network against unauthorized access. Its wall-mountable design, powered by PoE+, offers a sleek, space-saving solution that is easy to install and manage, making it an ideal choice for businesses, educational institutions, and large residential spaces seeking a reliable, high-performance wireless access point.
