

i-tec USB-C Dual Display Docking Station with Power Delivery 100 W

Model: C31DUALDPDOCKPD

Manufacturer: I-TEC

EAN: 8595611703683

Product Code: 422087

R2,477

This docking station is designed to be used with any laptop, tablet or smartphone regardless of type, brand or operating system. All that is needed is for your laptop/tablet/phone to have a free Thunderbolt 3 or USB-C port capable of transmitting video signal.

Printer? Keyboard? Mouse? External hard drive or flash drive? Charging cable for your phone? You can connect all your devices to the docking station quickly and easily. In addition, you can connect to the Internet thanks a LAN port, eliminating any worries with variable speed and quality of Wi-Fi networks.

Do you enjoy detailed graphics with high resolution? If so, then this station can allow you to connect to up to two external monitors or TVs with up to 4K resolution! And of course, you can enjoy truly smooth video thanks to high refresh rate of 60 Hz.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The new USB-C port has a number of tricks up its sleeve! Provided your laptop or tablet supports power delivery through this port, you gain the ability to connect all you need (data transfer, Internet, video and power supply) using a single cable.

A clear table is the backbone of any modern workspace. If your monitor supports the VESA mounting standard, you can easily install the docking station behind your monitor using an optional frame accessory (order code: VESADOCK1). Cables and other devices occupying space on the table will be a thing of the past.

Are you using Windows? Do you not make regular backups of your documents, pictures or videos? Install our free i-tec Docker Pro add-on (i-tec.cz/dockerpro) and you can start backing up your data immediately and, more importantly, easily. Connect any hard drive or flash drive to your docking station and the rest is a matter of a few mouse clicks.

USB-C office docking station with support for up to 2 external monitors with 4K resolution. The station is compatible with any laptop equipped with a USB-C or Thunderbolt 3 port. 6x USB ports, reliable and quick connection to your business network thanks to an integrated LAN port and support for installation behind a monitor make the docking station an ideal partner for professionals. And of course, the station is capable of charging your laptop or tablet with up to 100 W.

Integrated latest DL 1.4 protocol supports 5K/60 Hz resolution, making the device suitable for even professional graphics designers, data analysts, film editors and, of course, fans of HD video.

The docking station is available in three versions:

1. without enclosed USB-C charging adapter (product code C31DUALDPDOCKPD)
2. with enclosed 65 W adapter (product code C31DUALDPDOCKPD65W/UK)
3. with enclosed 100 W adapter (product code C31DUALDPDOCKPD100W/UK)

Should you need to connect your monitor via an HDMI port, you can purchase DP2HDMI4K60HZ (i-tec DisplayPort to HDMI Adapter), to allow HDMI connection with resolution of up to 4K and refresh rate of up to 60 Hz.

Note: macOS does not support Multi Stream Transport (MST) technology. Connecting two monitors to the station on macOS will result in both monitors showing the same image.
