The MX Master 3S for Business is the premier offering with significant upgrades for both ITDMs and users. For busy IT departments, it offers more security and better compatibility. Logi Bolt addresses rising security needs with fully encrypted Secured Connections Only mode that's FIPS compliant and robust even in congested wireless environments. For users, its 8,000 DPI "Darkfield" tracking makes work on high-resolution monitors faster and more accurate - even on glass. MagSpeed Scrolling zips down 1,000 lines of code or spreadsheet cells in just a second. Or with line-by-line precision. Its
