The free-standing Lanberg cabinet FF01-6815-12B is a solution designed to expand networks, install cabling and equipment, with a size of 19" and maximum loading capacity of 800kg. It can be used in networks, server rooms, small, medium businesses and data centers which need lot of space in a cabinet for network equipment. It can also work in low-voltage systems such as cable television networks, alarm systems, fire protection systems and access control systems, CCTV and IP surveillance. The construction is made of high-grade cold rolled steel and is characterized by excellent design and high quality of craftsmanship. The cabinet allows full adjustment of depth of the vertical mounting rails. It is equipped with a front tempered glass door with lock which can be installed on either right or left side. It has removable side panels and a rear solid steel door with
