Yeelight Arwen S Series Ceiling Lamp

Arwen S Series Ceiling Lights allow you to create an amazing atmosphere for any occasion. Freely adjust the brightness, color temperature, and even the color of the light to suit your needs. Create a unique atmosphere with the RGB ceiling illumination, with which you can adjust the light to suit your mood. Equipped with an additional LED light directed at the ceiling, it emits a colorful glow that adds character to your interior. Take advantage of the remote control lighting in many different ways. What else makes it stand out is its extremely simple, quick installation and elegant, yet practical design. The

lamp is available in 2 sizes, so you can easily fit it to your apartment.

Adjust the lighting to the occasion

The device allows you to almost freely change the various parameters of lighting. You can choose from 16 million colors, adjust the brightness of the light, as well as its color temperature in the range of 2700-6500K. With so many possibilities, you can precisely adjust the operation of the lamp to your expectations. Provide yourself with a focus-friendly illumination when you're working, a soft glow when you're relaxing, or a cozy, mysterious atmosphere for a romantic evening - it's up to you!

Control it with a smart assistant

The lamp is compatible with Google Assistant, Apple HomeKit, Samsung SmartThings and Amazon Alexa. Pair it with the system of your choice to gain the ability to control your lighting remotely - by voice or app. For convenient control of Arwen S-Series devices also allows a special Yeelight remote control and smart switch Smart Dimmer.

Excellent color reproduction

What further distinguishes the product is the high color rendering index Ra 90. This means that objects viewed in the light of Arwen S lamp look almost the same as in natural lighting. Thanks to this you will see everything in beautiful and vivid colors. With Yeelight you will forget about the dark, gloomy environment!

Moonlight in your bedroom

An interesting feature supported by Arwen S series devices is the moonlight mode. It is distinguished by an extremely low brightness of the emitted light, which is ideal for the night. Working in this way, the lamp provides gentle, eye-safe lighting that promotes rest and tranquility. If you don't like to sleep in total darkness, this imitation moonlight may be the perfect answer to your needs.

Design that will delight you

The 2 available lamp sizes allow you to perfectly match the product to the size of the room you want to use it in. A diameter of 455 mm is ideal for interiors of 15-25 m2, and 555 mm for those slightly larger - 25-35 m2. Classic, elegant design makes the lamps from Arwen S series a perfect addition to any interior design. An additional advantage of the products is their compact construction which prevents small insects or dust from getting inside. This makes it much easier to keep the devices clean.
