Blitzwolf BW-WA4 30W 4000mAh bluetooth speaker

Your favorite music can be where you want it to be. The device features a compact design and water resistance, so you can take it on a trip to the mountains, a garden party, etc. without worry. The DSP chip and 30 watts of power are responsible for the impressive sound. You can also customize the BW-WA4's performance with an equalizer. You can connect the speaker to another device using Bluetooth 5.0 or ports: AUX and TF. The durable battery allows you to work for up to 20 hours, and you'll charge it in about 3 hours. In addition, there's voice control and the ability to pair two speakers simultaneously for even more convenience.

The sound quality you deserve

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The BlitzWolf speaker has 30 watts of power, providing you with excellent sound quality. As a result, you can enjoy a richly detailed and deep bass sound. It's also possible to customize the BW-WA4's performance with the sound equalizer. For better results, you can pair 2 speakers simultaneously.

Several connection options

For even more freedom of use, the BW-WA4 offers several connectivity options. The speaker supports Bluetooth 5.0 for fast and stable signal transmission. You can also use the AUX port to connect the device of your choice, or play music using a TF memory card.

Durable

Take the BlitzWolf speaker to a picnic or garden party - wherever you want. The device features a durable 4,000 mAh battery that allows you to play music for up to 20 hours. In addition, it is IPX6 water resistant, so you can use it without worrying about damage.

Built-in microphone

Another advantage of the BW-WA4 speaker is its built-in microphone, so you can use the voice assistant. The device works with Siri and Google Assistant. No longer do you have to reach for your phone to turn on playback - a simple voice command is all you need.

Compact, carefully considered design

The lightweight and compact design of the speaker allows you to store it conveniently. You can successfully stow it in your backpack or purse. The silicone finish prevents the speaker from slipping out of your hands. You can also attach a lanyard to it thanks to a dedicated hole. What's more, the buttons on the top are responsible for its convenient operation. With their help, for example, you can adjust the volume, stop playback, or set the equalizer.

Included:

- speaker
- USB-C charging cable
