R1,995

Darkflash DK431 Glass computer case (black) + 4 RGB fans

With the help of the Darkflash DK431 Glass computer case, you can easily create a hardware configuration that you will enjoy gaming or working on. The product is equipped with various ports such as USB 3.0 and 2.0, and high-quality materials were used in its construction. The transparent panels will not only make it easier to swap out components, but also allow you to achieve interesting visual effects, for example, when combined with RGB fans.

Stylish and functional

The side panel of the case is equipped with practical hinges, so you can easily open it to replace components or clean your hardware. What's more, both the side and front panels are made of tempered glass, which allows you to expose the components placed inside - for example, those with

colorful backlighting. In addition, their opening is facilitated by a special silk handle.

Optimal cooling system

Play dynamic games and be sure that your computer will not overheat. The DK431 allows you to mount up to 12 120 mm fans or 8 140 mm fans. It also features vents on its side panel for even better heat dissipation. What's more, you can install 360 mm water cooling in the top or front of the case. Note: it is not possible to install fans on the right side and water cooling on the front of the case at the same time.

More expandability

The case allows you to install up to 4 hard drives, so you don't have to worry about running out of space for your photos or videos. It's ideal for graphic designers and photographers, among others. It also allows you to mount a 400 mm VGA card and 160 mm high CPU cooling. The carefully thought-out design and practical cable grommet make sure you can optimize the space. The DK431 also has a removable dust filter to help you keep your components in good condition.

An array of useful ports

Create a hardware configuration that you will be comfortable using. The DK431 Glass case is equipped with a number of useful ports and buttons that will make your work much easier. Among other things, you have a microphone input and headphone/speaker output, 2 USB 2.0 ports, as well as Reset and Power buttons. There's also a USB 3.0 port for fast charging of connected devices and instant file transfers.

Included

- computer case
- CL6 ARGB x4 fans

Manufacturer	Darkflash
