Arzopa A1 M 17.3" Portable Monitor

The Arzopa A1 M portable monitor, the successor to the A1 MAX model, delivers top performance in a compact form factor! It offers a 17.3-inch Full HD display, which is responsible for excellent image quality and vivid colors. Advanced Eye Care technology reduces screen flicker and harmful blue light, which minimizes eye fatigue and ensures comfortable working even throughout the day. It has 2 built-in speakers, and its lightweight and compact design makes it easy to pack in your bag and take with you wherever you go.

Great image quality

Now no detail will escape your attention while watching movies or playing games! Its 17.3-inch screen with a 16:9 aspect ratio and Full HD 1920 x 1080p resolution provides incredibly clear and detailed images that will transport you to a world of virtual reality. With a brightness of 300 cd/m2, you can enjoy images with vivid colors and saturated details, even in brightly lit rooms. What's more,

it also uses HDR technology to guarantee an even better viewing experience.

Wide compatibility

Compatibility problems are a thing of the past! The Arzopa A1 M offers several different ports. It features a mini HDMI and USB-C port, which allow you to seamlessly connect to a laptop, tablet or even a gaming console. You can easily connect your MacBook 12, Lenovo Youga laptop, Samsung S20 smartphone, PS4 console and more!

Use as you are comfortable

The A1 M offers up to three display modes, making it perfect for many situations. Duplicate Mode allows you to share the image from your laptop to a larger screen, while Extend Mode allows you to extend your desktop from the main screen to a portable monitor for even more space while working. Second Screen Mode allows the A1 M to be used independently as a second screen.

Lightweight, durable and reliable

The portable monitor impresses not only with its fantastic image quality and functionality, but also with its sturdy construction. Made of aluminum alloy, the monitor is lightweight and exceptionally durable - great for both everyday use and travel. You can position it both vertically and horizontally, adjusting it to your preferences and work style, and the 178° wide viewing angle ensures consistent images and excellent color reproduction, no matter what angle you look at the screen.

Discover the power of sound

Listen to your favorite songs freely, without the need to connect additional speakers! The portable monitor is equipped with 2 speakers that allow you to enjoy high quality sound, and also offers the amazing Dolby Atmos surround sound effect. Whether you're watching a movie, listening to music or playing games, the built-in speakers will transport you right into the middle of the action!
