Computer case Darkflash DS900 (white) + 7 ARGB Fans

Darkflash DS900 is a modern solution for demanding users who value both aesthetics and functionality. The distinctive white design with a panoramic design without an A-pillar, equipped with double fully transparent glass walls, not only looks striking, but also provides excellent visibility of components. The case is designed to provide optimal cooling, performance and versatility, while offering ease of modification and expansion of computer systems. In the set you will find 7 ARGB 120 mm fans.

Durability and aesthetics

The Darkflash DS900 stands out for more than just its looks. It is an enclosure built with durability in mind. The support mechanism and sturdy construction provide stability and security for all computer

components, which is especially important for system expansion.

Effective cooling

Every computer needs a good cooling system, and the DS900 provides it without question. The ability to mount up to 10 120 mm fans and a large 360 mm heatsink makes the case ideal for those who expect high performance and reliability, especially during intensive use.

Protection and ease of use

The case is designed to protect the inside of the computer from dust, which is important for maintaining cleanliness and performance. In addition, its clever design makes it easy to upgrade and expand components, which is especially useful for users who want to build exactly the system they want.

Compatibility and expansion

The Darkflash DS900 is compatible with a wide range of motherboards, including ATX, M-ATX and ITX, giving users freedom of choice and flexibility in configuring their systems. Additionally, seven PCI slots allow for further expansion and customization of the chassis.

Included
